

Hot Sauce Your Tops

Software Updates and Add-Ons

(6-25-2020)

Dear Hot Sauce Admins & Users,

We have another new software update! We continue to bring integration to our Moraware users as well as continue to add new offerings!

MORAWARE INTEGRATION WITH MULTIPLE LOCATIONS

Many of the jobs we do have countertops installed in multiple locations (kitchen, bar, bathroom, etc.) Now, link multiple locations into one Moraware job! Simply enter the same Moraware job number, and each time you enter a new location, a new and additional Moraware form will appear to help distinguish and separate multiple counters within the same job. See below:

Enter Customer Info Below:

12345
If none, write "none"
